

## Welcome our new EMS Learning Facilitator

Hey everyone, my name is Andrew Crum and I am the new EMS Learning Facilitator for MEMS. My background includes working ground EMS in Springfield for about 6 years, then transitioning into flight medicine here in Central Illinois for 9 years. I am very much looking forward to working with everyone. I can be reached directly at 217-788-5512, and by email at [crum.andrew@mhsil.com](mailto:crum.andrew@mhsil.com). Please feel free to reach out and get your agency's yearly training scheduled or for any other questions you may have. Thank you!

## Common PCR and Data Questions Answered

Please find the attached guidebook on prehospital care report data. There is some very good information in there that both administrators and providers will find useful.

## Bob Page Class in Jerseyville

Please see the attached flyer or scan the code for more info. 16 hours of CEU for only \$20.

July 20 and July 21

## Registration:

Use the camera on your phone to scan this code

## Questions:

Contact Nathan Bishop at [nbishop@jch.org](mailto:nbishop@jch.org) or 618-498-8449

## Agency Leader Update July 12

In late 2022, IDPH made multiple changes to the Administrative Rules. Those that directly involved patient care providers have already been included in the protocols, however several others remain. Updating agencies on those changes will be the primary focus of this meeting. Agency leaders will receive a link for this virtual meeting, held on July 12 at 5 p.m.

## New (ish) Process for Communicating with the EMS Office

Have a question or concern that doesn't require an Incident report? Not feeling like making that long trek back to the EMS Office? Or maybe just curious about the outcome or findings on a particular patient? MEMS now has an easier way to submit these requests.

Simply take out your phone and scan the QR code with the camera! It only takes about a minute. It can be done from anywhere and for any MH location. A FIN number is required.

This QR code will be in the EMS room as well.

## MEMS Education

Save the date for the 2023 Mid-America Emergency Symposium! It is scheduled for September 8 at the MLC (times and content to follow).

The MEMS monthly CEU topic for June is 12-Lead EKG's on Friday June 9, 9 – 10 a.m. and Tuesday June 27, 7 – 9 p.m.

Don't forget about the Lead Instructor education opportunity that was sent out. Contact [brown.sara@mhsil.com](mailto:brown.sara@mhsil.com) to sign up.
