How to Order Hypoglycemia Treatment Medication utilizing the Hypoglycemia Treatment Protocol

1. **Determine the hypoglycemia treatment needed**, based on the patient’s condition and medical history, including bariatric surgery.

   ![Image of Hypoglycemia Treatment Protocol](image)

   The Hypoglycemia Treatment Protocol can be accessed through a hyperlink located in:
   1. Reference Text of the order “Initiate Hypoglycemia Protocol”
   2. Flowsheet – Frequent Documentation, Glycemic Control
   3. Caredex
   4. PowerPlan

2. **Use the Hypoglycemia Treatment PowerPlan**
   Order a one-time med under the physician name that they are notifying.

   ![Image of PowerPlan](image)

3. **Select the medication from the PowerPlan**
   1. Choose the medication
   2. Click “Orders For Signature”
   3. Click “Sign” to finalize the order

4. **Use BBMA to give the medication**
   It will not be verified by pharmacy, but will be on eMAR.
