APPLY ONLINE

We accept only a limited number of summer interns each year. Visit jobs.choosememorial.org/students/nursing-internships/ for specific deadline information and start dates for our next group of summer interns.

PROGRAM DETAILS

- ▶ Upon successful completion of Memorial's Summer Student Nurse Internship, you will be considered for an available patient care technician position while you complete your nursing program. Successful summer nurse interns can also apply for available RN positions; in fact, 75 percent of former student nurse interns have been hired as an RN at Memorial!
- ▶ This paid internship program allows you to build critical organizational, communication and assessment skills that will prepare you for successful transition to the RN role.

Serve as a
**SUMMER STUDENT
NURSE INTERN**
at Memorial

Springfield, IL

A PLACE TO BE YOUR BEST.

Memorial Medical Center's summer internship program for student nurses is designed to deepen your understanding of the multifaceted role of the RN. Working alongside members of our nursing team will help you learn to act and think like a nurse, sharpen your assessment and critical-thinking skills and develop relationships with clinical professionals throughout the hospital.

This is a highly competitive, full-time paid summer internship lasting up to eight weeks. During this unique experience, you will also have an opportunity to discuss unit and hospital quality initiatives and review as a group any new research in these areas. At the end of the summer, you will understand the professional role of the registered nurse and how nurses assess and meet the needs of their units. It's an exciting time to be a nurse!

Memorial Medical Center is a Magnet-designated, Level 1 Trauma hospital that is nationally recognized for delivering high-quality healthcare to those we serve. We invite you to apply and participate in a summer employment opportunity that will give you a close look at the "real life" of hospital nursing.

NURSING UNIT OPPORTUNITIES AT MEMORIAL

At Memorial Medical Center, professional nursing is the backbone of the hospital. Nurses deliver exceptional, compassionate care using advanced technology and evidence-based care models to ensure a great patient experience. Each unit provides a rich environment for learning.

Summer Nurse Intern experiences are available in medical/surgical nursing in specialties such as cardiology, neuroscience, renal (including transplantation), plastic surgery and post-trauma areas. Also available are specialty experiences such as preoperative services, psychiatry or the emergency department. Interns will be able to indicate their preferences.

QUALIFICATIONS

Applicants must successfully complete at least their junior year in a nursing program prior to the start of the internship. Enrollment in a BSN program and a grade point average of 3.25 on 4.0 scale is required. Applicants also must hold current certification in CPR by the beginning date of the internship.
