

EMS Update

Illinois Administrative Code Revisions- Update

As reported in the January newsletter, a significant number of changes have been proposed. We are happy to report that IDPH has removed the proposed requirement that students take the NREMT- EMR certification exam to obtain the Illinois EMR. As a result, in Region 3 a workgroup is being developed to establish a consistent EMR test(s) to be used throughout the Region. Any Region 3 LI's interested in participating should contact brown.sara@mhsil.com. Any LI's in the Region 6 area who would be interested in participating should contact slade.michael@mhsil.com.

Education

Due to the MAES event on Friday, October 11, the monthly A.M. CE class "Gynecologic Emergencies" is postponed. This class will instead be held on Friday, December 13, at 9 a.m. The previously scheduled topic for December, "Tactical EMS Rescue Task Force", will be presented at another time.

There are 20.72 Lead Instructor continuing education hours loaded onto HealthStream at this time. These would fulfill the 20 hours related to the development, delivery and evaluation of education programs portion of the total 40-hour IDPH requirement for renewal.

SAVE THE DATE

MID-AMERICA EMERGENCY SYMPOSIUM

Friday, Oct. 11, 2024

Memorial Learning Center
Springfield, IL
